FFBFFL WEEK 4 RECAP

DON'T CALL IT A COMEBACK

I won a game this week; win next week and that's two in a row, then win the following week and we've got ourselves a winning streak. It has happened before, so let's see some hustle and jack it up a little—I've got a feeling things are about to turn around here.

Apparently Preston got the same memo. He already owns the **third**-highest single-game score in league history (203.80 in Week 2 of 2022), and his 194.70 this week now sits **ninth** on that list (But if we scale that with # of teams per year and scoring shit I am sure he is much higher).

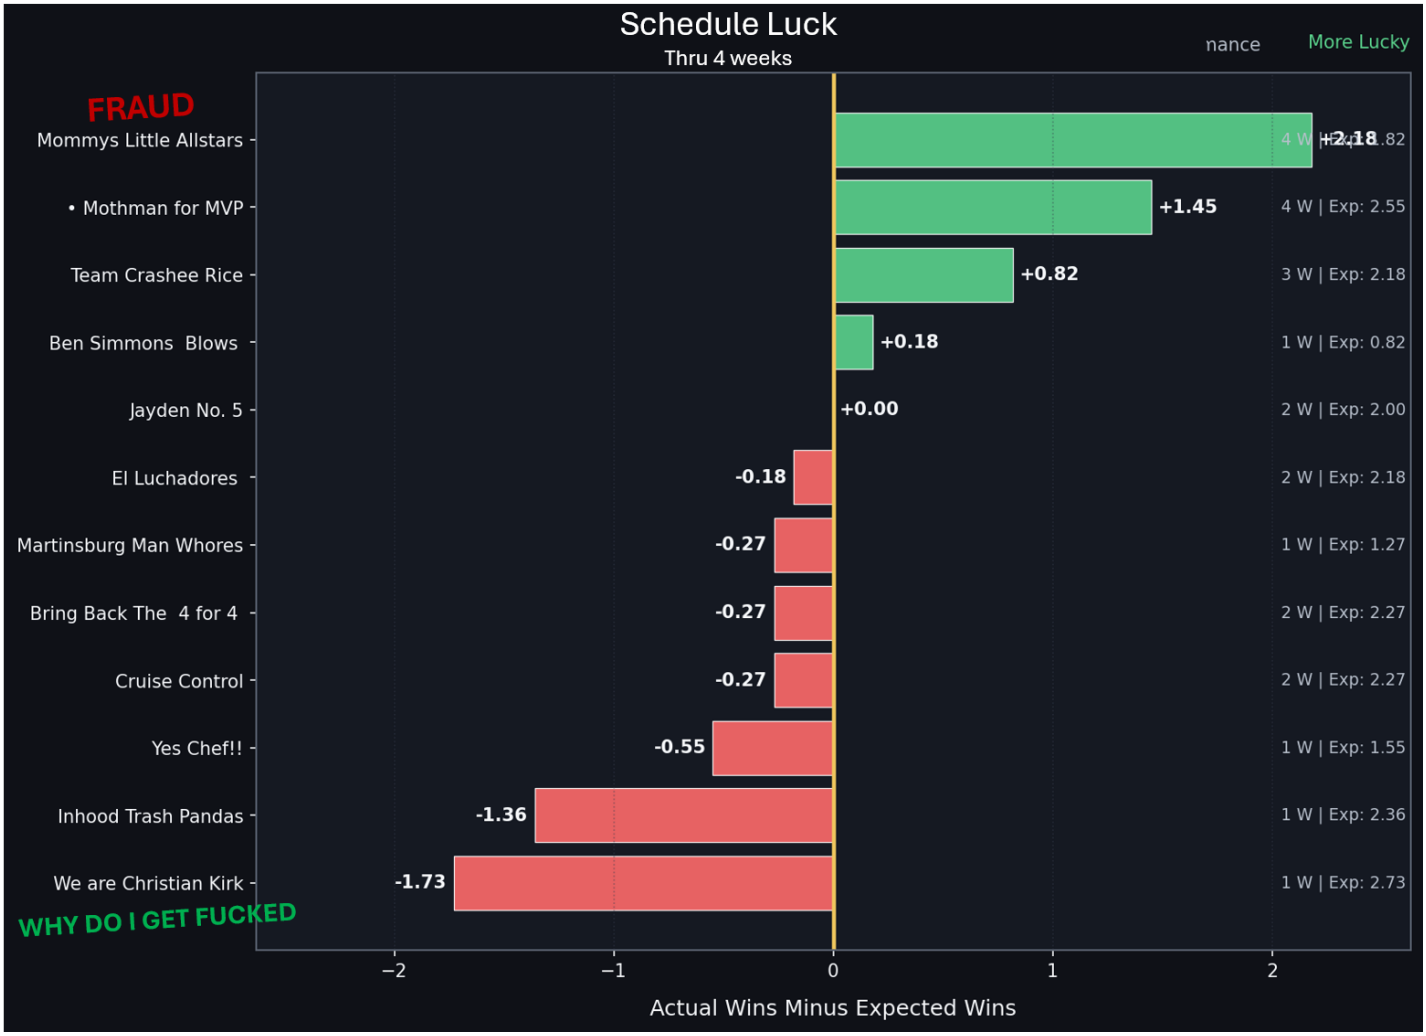

Phase one of conference play is complete, and the next three weeks are Cancun vs. Galveston. With four weeks in the books and roughly a quarter of the regular season behind us, it's time to crunch some numbers because the record books don't always show the truth… The devil is always in the details… Some of you are about to get more exposed than that lady who killed her children.

SEASON SNAPSHOT Q1		
Average Team Score	127.46	Across all 48 team scores | Weeks 1–4
Highest Score	Yes Chef!! — 194.70	Week 4 vs. El Luchadores
Lowest Score	Martinsburg Man Whores — 78.90	Week 4 vs. Team Crashee Rice
Highest Score in a Loss	We Are Christian Kirk — 154.10	Week 3 vs. Cruise Control (156.45)
Lowest Score in a Win	El Luchadores — 86.80	Week 2 vs. Ben Simmons Blows (80.90)
Biggest Blowout	Team Crashee Rice 141.20 — Martinsburg Man Whores 78.90	Week 4 | Margin: 62.30
Highest-Scoring Matchup	Yes Chef!! 194.70 — El Luchadores 151.25	Week 4 | Combined: 345.95
Closest Game	Team Crashee Rice 122.60 — Yes Chef!! 121.95	Week 2 | Margin: 0.65

Fun Fact: Week 4 supplied the season's highest score, lowest score, biggest blowout and highest-scoring matchup

Not So Fun Fact: I scored my 154.10 lost in Week 3, while Jack collected a Week 2 win with 86.80. That is 67.30 fewer points for a better outcome.

FIGURE 1 • LEAGUE LUCK

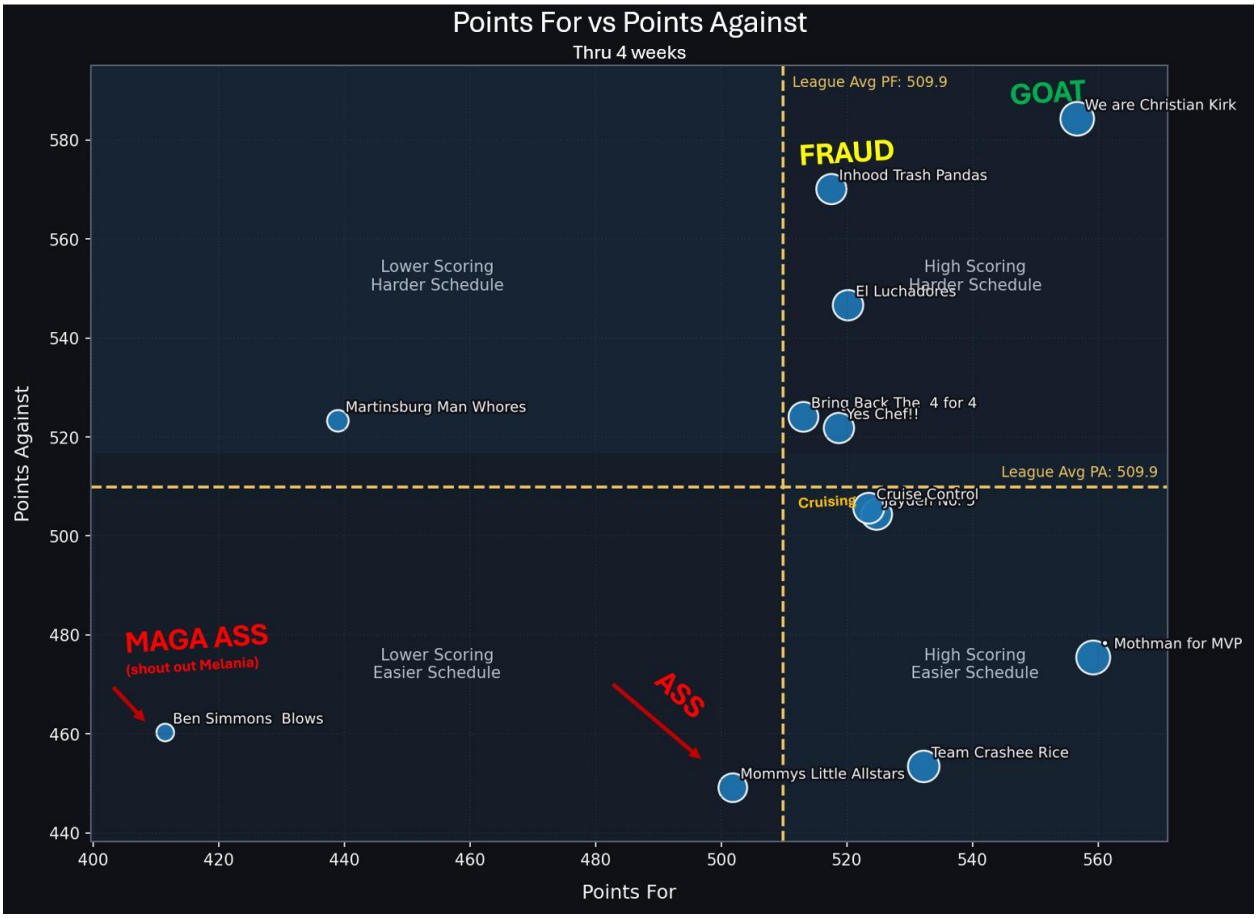

Schedule luck = actual wins minus expected wins. Expected wins add up the fraction of the other 11 teams each roster would have beaten each week. Positive values mean more wins than that scoring-based expectation; negative values mean fewer.

Tyler leads the league in favorable outcomes: four wins against 1.82 expected, a +2.18 gap. Which makes sense considering he was named in the Epstien files **283** times. Jakob is next at +1.45, although leading the league in points makes him an actual contender.

At the other end, I have one win against 2.73 expected… And yet year in and year out I still do this for you guys yet you all still shit on me… Pain… Pain all over…

FIGURE 2 • SCORING

Jakob leads the scoring race with 559.25, just 2.55 ahead of my 556.70. My opponents have scored a league-high 584.25; Tyler's have managed 448.70, a 135.55-point difference. You see how much of a fucking troll this guy is? Technically speaking, or actually literally, we can vote to kick him out of the league. Just a FYI

Tyler is actually a dwarf, I am not sure if anyone knew that. I just wanted to mention this because I wanted to highlight the diversity we have in the league. And no he is not magical elf that diddles little boys, whatever you do, do NOT call tyler a pedophile when you see him in public. That is highly NOT recommended.

BREAKDOWNS

HOW WEEK 4 HAPPENED

WE ARE CHRISTIAN KIRK 154.60 • INHOOD TRASH PANDAS 147.65

Bi-han Robinson of Lin Keui Klan made my personal hell freeze over by icing Justins 154.65 point performance. It wasn't without a fight tho Big J Squilliam Fancy pants was singing its SWEET SWEET VICTORY nd picking up the Cards defense just goes to show how fucking smarter I am than you!!!! BETTER THAN YOU!!! TOUGHER THAN YOU!!! GET FUCKED RETARD IM NOT EVEN COVERING YOUR SORRY ASS TEAM

MOTHMAN FOR MVP 147.15 • BEN SIMMONS BLOWS 120.45

Jakob reached 4–0 with 29.00 from Kyle Now Here's a Monangai and 22.50 from Carnell Andrew Tate, proving. Stafford and Adams combine for only 21.05 (go birds). Dom Camp got 24.20 from Malik Welcome To The Naberhood, 21.60 from Quinshon Judkins and 20.00 from George Immune to the Substation Kittle, but Kalif Everybody Loves Raymond's 2.60 did not exactly fill the Justin the Jetsons wormhole in the lineup.

TEAM CRASHEE RICE 141.20 • MARTINSBURG MAN WHORES 78.90

Abhik won by a week-high 62.30 despite getting zero from Rashee Uncle Bens Rice and 2.00 from Parker Washington, because CeeDee Lamb Chops and Kenneth I'm not handicapped I don't need a Walker supplied 74.20 between them. Those two alone finished only 4.70 behind Dylan **entire starting lineup**. Lamar Jackson and Christian McCaffrey contributed 41.10 for Martinsburg, leaving the other seven starters to scrape together 37.80.

MOMMY'S LITTLE ALLSTARS 123.35 • JAYDEN NO 5 111.55

Fraud. Tyler only has one win above league average. He's as fraudulent.

BRING BACK THE 4 FOR 4 102.70 • CRUISE CONTROL 98.20

Dylan W won the week's closest game by 4.50, with Jared Goff's 28.60 and RJ Steve Harvey's scoring 19.in the bonus round to win the game. Mikey's starting receivers and flex combined for 8.40 while Donkey Kong (not racist) Metcalf's 17.50 sat on the bench. After dropping a league-high 156.45 on me, Cruise Control broke down and ended having to call triple A.

YES CHEF 194.70 • EL LUCHADORES 151.25

Preston reopened the restaurant with 46.20 from Tre Flip McMillilion, 36.70 from Kylo-Ren Williams, 32.00 from Joe Shmoe Dug deep in his Burrow and 27.70 from IM TEE'D UP Higgins, securing his first win with the season's biggest score. Jack posted the week's third-highest total behind ICE Young, then lost by 43.45 anyway.

GLENN TAPE SCOUT "HES STILL RUNNING" AWARD

Tetairoa McMillan • Yes Chef — 46.20 led every starter in the league just beating out (of maybe off) CeeDee Lamb's 42.30.
